

# Blaster 350s and 750s mounted spreaders

**BEST WARRANTY**  
3 YEARS STANDARD  
5 YEARS STRUCTURAL STEEL & HOPPER

If you are looking for a reliable spreader that will handle even the most sticky sand and salt, look no further. Meyer Blaster spreaders are tough, easy to use and built to handle year round use.

## PERFORMANCE

The Blaster's unique 1/2 horsepower, direct-drive motor is rated at up to 70 amps of surge power and 15 ft. lbs. of stall-torque to grind through those annoying chunks of salt or sand. And the direct-drive system applies the torque directly to the auger

One-touch operation provides you total control over Blaster spreaders. The illuminated in-cab controller (patent-pending) includes buttons for the on/off switch, the "blast" mode which provides an on-command 70 amp surge, and a "vibrate" mode. You can also regulate the spinner speed with the variable speed controller.

## RELIABILITY

The hoppers are made of rust-proof, high-density polyurethane...the hopper frames are powder coated with automotive style paint...the nine-inch spinners are made of stainless steel...and the electrical harnesses include watertight, marine-style connections. Plus, you can purchase optional motor guards that double as storage stands in the off season.

Blaster's 1/2hp motor provides superior operating performance, however, its marine-style electrical plug keeps the water out and ensures consistent electrical flow from the vehicle's battery to the motor.

## EASE OF USE

Flat beds, dump trucks, tail-gates...you name the backend, and we have the mounting system for it. There are eight different do-it-yourself mounting options, including our most popular two-inch receiver mount standard on the Blaster

Our most popular Blaster mount, the easy-to-use two-inch receiver, is especially appropriate for SUVs, pick-up trucks, tractors and utility vehicles.

Blasters are backed with three years of standard protection, and five years on all structural steel and hopper (you must register your new Blaster at [meyerproducts.com](http://meyerproducts.com) to activate years three to five).

# Meyer Blaster 350S & 750S

## Quality tailgate and 2" hitch mounted Salt and Grit Spreaders

The Meyer Blaster 350s and 750s spreaders are professional tailgate and hitch mounted spreaders. Easy to use and ideal for many small to large sized jobs from car parks to roads. For driver convenience, the Blaster range has a quick-attach system that mounts on your existing tow hitch or special adaptations for the tailgate. Hitches can also be provided to attach the spreader to a forklift truck, ATV, tractor, mower, loader, loading bed or virtually any type of prime mover with a sufficient 12v power supply. The Blasters' unique 1/2hp, direct drive motor is rated at up to 70amps of surge power to grind through those annoying chunks of salt or sand. This direct drive system applies the torque directly to the auger. A standard vibrator system helps to keep the material free flowing. A special illuminated controller provides in cab speed variation, blast mode, auto vibrate and auto spinner stop mode. Suitable for spreading different materials.

CODE	DESCRIPTION	PRICE
M37000	<b>Blaster 350s Mounted Spreader</b> 160litres -224kg capacity with spreading width of 1-6 metres. • Lightweight polythene hopper for corrosion resistance and durability. With robust steel mounting frame • 12v heavy duty electric motor 1/2hp. • A standard vibrator motor is fitted to aid the free flowing of more difficult materials. • Variable speed in cab controller with blast function, auto vibrate and auto spinner stop mode to reduce wasted material at junctions. • Quick-Attach50 2" receiver hitch mounting system • No-Leak Auger kit (fine material)	2495.00
M39000	<b>Blaster 750s Mounted Spreader</b> As above but 200litres -280kg capacity with spreading width of 1-6 metres.	2795.00
M34300	<b>No-Leak Auger Kit (Course Material)</b> - Prevents course material like rock salt from leaking through the throat of the spreader and provides a uniform salt distribution pattern.	98.00
M34301	<b>No-Leak Auger Kit (Fine Material)</b> - Prevents fine material like fine salt from leaking through the throat of the spreader.	98.00
M34109	<b>Auger Chain Kit - damp material agitator</b> Helps break up material. Includes mounting hardware. Recommended for use with M34600.	97.95
M36500	<b>Mounting Kit</b> -Tractor 3 Point Linkage—Cat1 3-Point Hitch attachment adapts the Meyer BL range to any standard 3-point hitch configuration.	295.00
M91003	<b>Mounting Kit</b> - 2" receiver hitch universal tow bar bracket mount. For mounting on existing road vehicle drawbar assemblies using bolt holes.	85.00
M35002	<b>Mounting Kit</b> -'H' frame flat bed/utility vehicle bed (see pictures on p6).	325.00
M34700	<b>Removable Hopper Screen</b> The removable, welded-steel mesh hopper screen prevents large chunks of material into the hopper and improves material flow. Available in 2" x 2" or 1/2" x 1/2" mesh.	165.00
M36407	<b>Motor Guard and Integral Storage Stand</b> for Blaster (see p8)	155.00
